RETRO DESIGN WITH FM RADIO
The charging cable works as the radio antenna

8 W portable speaker with a vintage look: metal grille and gold details on an ABS and silica gel body. Bluetooth 5.3 with TWS mode, FM radio, TF card reader, USB and AUX. It weighs 350 grams and plays up to 5 hours of music. Available in green and beige.

THE LOOK OF ANOTHER ERA, TODAY'S CONNECTIVITY

WHAT IT SOLVES

A speaker that looks good both off and on

Built-in FM radio
It scans and stores stations by itself, and uses the USB Type-C charging cable as an external antenna.

Four ways to play
Bluetooth 5.3, TF card, USB stick or 3.5 mm AUX input, with MP3 and WAV files.

5 hours and 350 grams
A 1500 mAh battery that charges in three hours over USB Type-C, in a body 10.6 cm across.

TWS mode
Two units pair with a double click on the power button and play as a stereo pair.

The cable as the antenna: FM radio needs an antenna to pick up the signal, and a 10-centimetre speaker has no room for a decent internal one. The solution is to use the charging cable itself as an external antenna: with it connected, reception improves noticeably. It is worth explaining to the customer, because without the cable the radio sounds poor.

WHERE IT DELIVERS

Built for the home, the office and travel

GIFT AND DECOR

An object to leave on display

Metal grille, gold details and two soft colours: one of the few speakers left out on the table because it matches the room.

- Green or beige
- ABS and silica gel
- 10.6 × 4.1 × 10.6 cm

NO SIGNAL OR DATA

Works without a phone

FM radio, TF card and USB stick let you play music where there is no coverage or data plan, without depending on the phone.

- FM radio with scan
- TF card and USB
- MP3 and WAV

CALLS AND DESK

Hands-free at the office

Built-in microphone to take calls without touching the phone, with 15 metres of Bluetooth range and four control buttons.

- Built-in microphone
- 15 m range
- 4 control buttons
