WHAT IT SOLVES

True stereo, long battery and a classic style

40 W stereo
Two 20 W channels in the same body: real separation between left and right, not mono sound.

15 hours of music
A 4000 mAh battery: it covers a full working day or a long gathering without looking for a socket.

Strap to carry it
A carrying strap is included, which on a 1.58 kg unit is what makes it truly portable.

Dedicated TWS button
Its own button pairs two speakers and a double click disconnects them, with no combinations to remember.

The 40 W stereo: a 40 W mono speaker is not the same as a 2 × 20 W one. Here there are two separate channels, so the guitar can play on the left and the voice in the centre, as it was recorded. And in TWS mode two units share the channels between them, which spreads the sound across a large room.

WHERE IT DELIVERS

Built to go wherever the gathering goes

GROUPS AND EVENTS

Sound for a group

40 W stereo is enough for a patio, a terrace or a workshop, and 15 hours of battery cover the whole event.

- 40 W · 2 × 20 W
- 15 hours of battery life
- Carrying strap

NO SIGNAL OR DATA

Works without a phone

FM radio, TF card and USB stick let you play music where there is no coverage or data plan, without depending on the phone.

- FM radio with scan
- TF card and USB
- Automatic AUX detection

GIFT AND DECOR

An object to leave on display

Metal grille, gold logo and three colours: one of the few speakers left out on the furniture because it matches the room.

- Black, green or beige
- ABS and silica gel
- 7 control buttons
