24.5" FLAT GAMING MONITOR · WITH FIRMWARE UPDATES

TE-2478G

24.5" IPS Full HD · 240 Hz and 1 ms · updatable firmware · rear RGB

OTA FIRMWARE UPDATES
The monitor improves after you buy it, like a phone

24.5-inch flat monitor with a Full HD IPS panel at 240 Hz and 1 ms MPRT, 1500:1 contrast and HDR. It supports OTA firmware updates, something uncommon in a monitor, and includes a USB port, an on-screen crosshair, six picture modes and rear RGB lighting.

A MONITOR THAT UPDATES OVER TIME

REFERENCE IMAGE

DISPLAY	RESOLUTION	REFRESH RATE	CONTRAST
24.5" IPS	Full HD	240 Hz	1500:1

WHAT IT SOLVES

Speed, gaming aids and firmware that improves

Updatable firmware
It receives improvements and fixes after purchase, instead of staying with the factory software.

240 Hz with 1 ms
At 24.5 inches, the standard size for competitive play: the whole screen fits in your field of view.

IPS panel with 1500:1
178° viewing angles and contrast above that of a regular IPS, with HDR support.

Crosshair and six modes
A virtual on-screen sight, FPS and RTS modes, and six preset picture profiles.

What OTA firmware allows: a monitor usually keeps its factory software forever: if a compatibility problem with a console appears or a setting is missing, there is no fix. This model accepts OTA updates, just like a phone, so it can fix faults and add features after purchase. It is rare to see in a monitor.

WHERE IT DELIVERS

Built for the gamer who wants it to last

COMPETITIVE GAMING

Two hundred and forty frames

240 Hz with 1 ms MPRT, AMD FreeSync and VESA Adaptive-Sync, with an on-screen crosshair and one-touch FPS and RTS modes.

- 240 Hz · 1 ms MPRT
- FreeSync and Adaptive-Sync
- Crosshair · FPS and RTS modes

COLOUR AND VIEW

IPS, not a cheap TN

1500:1 contrast with 178° viewing angles and HDR: fast entry-level monitors use TN panels with poor colour; this one does not.

- 1500:1 contrast · 300 nits
- 178° angles · HDR
- Flicker Free · Low Blue Light

SETUP AND INSTALLATION

Rear RGB and just 3.9 kg

RGB lighting on the back, a USB port, VESA 100 mounting and a light body that goes on an arm with no effort.

- Rear RGB lighting
- USB-A port · HDMI cable included
- VESA 100 · 3.90 kg
