FLAT GAMING MONITOR

TE-2754G

27" QHD flat Fast IPS · 2560 x 1440 at 200 Hz · 1 ms · 10-bit colour

10-BIT FAST IPS PANEL
1.07 billion colours and 96% DCI-P3

27-inch flat monitor with a 10-bit QHD Fast IPS panel, 200 Hz over DisplayPort and 1 ms response. It covers 96% of DCI-P3 with 1.07 billion colours, frameless design, rear RGB and a stand with height, swivel and pivot in both directions.

REFERENCE IMAGE

SCREEN	RESOLUTION	REFRESH RATE	RESPONSE
27" flat IPS	2560 x 1440	200 Hz	1 ms

WHAT IT SOLVES

The panel that serves for gaming and for working with colour

10-bit Fast IPS
1.07 billion colours and 178° angles: the image does not shift tone when viewed from the side.

200 Hz in QHD
Over DisplayPort 1.4 it reaches 200 Hz at 2560 x 1440; over HDMI 2.1 it runs at 144 Hz.

Pivot in both directions
Rotates 90° each way, 180° in total, plus height adjustment and ±20° swivel.

96% DCI-P3
With 130% sRGB and 96% Adobe RGB: enough coverage for colour work, not only gaming.

IPS, VA and OLED: each panel type wins at something different. VA delivers more contrast, with deep blacks, and curved monitors use it. IPS gives up contrast but returns better colour and viewing angles, which is what image work asks for. OLED gives absolute black, at a higher price. This is the line's QHD IPS.

WHERE IT DELIVERS

Built for people who game and also edit

COMPETITIVE GAMING

200 Hz without dropping resolution

QHD at a high refresh rate, with 1 ms MPRT and FreeSync Premium: competitive smoothness without losing definition.

- 200 Hz over DisplayPort
- 1 ms MPRT
- FreeSync Premium

COLOUR AND CREATION

Ten bits of depth

1.07 billion colours against 16.7 million on an 8-bit panel: clean gradients, with no banding in skies or shadows.

- 96% DCI-P3 and Adobe RGB
- 130% sRGB
- Pivot for vertical work

COMPLETE DESK

Frameless and with speakers

Frameless design for dual-screen setups, rear RGB controlled from the menu and built-in speakers.

- Frameless design
- 3 W speakers
- RGB on the back cover
