CURVED GAMING MONITOR

TE-3217G

31.5" curved 1500R · QHD 2560 x 1440 · 165 Hz over DP · four inputs

CURVED QHD WITH FOUR INPUTS
Two HDMI and two DisplayPort to switch between devices

31.5-inch curved monitor with a 1500R VA panel in QHD 2560 x 1440 resolution, 165 Hz over DisplayPort and 1 ms response. 3000:1 contrast with 99% sRGB, AMD FreeSync and an on-screen crosshair. Two HDMI and two DisplayPort, with rear RGB lighting.

THIRTY-TWO CURVED INCHES IN QHD DEFINITION

REFERENCE IMAGE

SCREEN	RESOLUTION	REFRESH RATE	CURVATURE
31.5" curved VA	2560 x 1440	165 Hz	1500R

WHAT IT SOLVES

Definition, curvature and connections to spare

QHD at 31.5 inches
2560 x 1440 keeps the image sharp on a screen where Full HD would already look grainy.

Four video inputs
Two HDMI and two DisplayPort: PC, console and laptop connected at once, without unplugging anything.

1500R curvature
One of the tightest curves on the market, on a screen where the curve really shows.

On-screen crosshair
Draws a crosshair in the centre of the screen, useful in shooters that do not have one built in.

PART NUMBER
MON315CTE3217G

Important about the cable: the monitor reaches 165 Hz only over DisplayPort; over HDMI it stays at 144 Hz. And only the HDMI cable comes in the box. It is worth saying so when selling and offering the DisplayPort cable with the monitor: without it, the customer will never see the 165 Hz they paid for.

WHERE IT DELIVERS

Built for the desk with several devices

MULTITASKING ACROSS DEVICES

Four sources connected

Two HDMI and two DisplayPort let you keep the work PC, the gaming PC, the console and the laptop plugged in at the same time.

- 2 HDMI · 2 DisplayPort
- 5-key control
- OSD in 12 languages

COMPETITIVE GAMING

Crosshair and game modes

On-screen crosshair, FPS and RTS modes, AMD FreeSync and MPRT motion blur reduction: the aids shooter titles call for.

- On-screen crosshair (Game Plus)
- AMD FreeSync
- 165 Hz over DP · 1 ms MPRT

LONG SESSIONS

Less fatigue in long matches

Flicker Free removes imperceptible flicker and the blue light filter reduces emission during night-time gaming.

- Flicker Free · Low Blue Light
- Rear RGB
- VESA 100 · fixed stand
