WHAT IT SOLVES

A full-size office keyboard, without the cable

Full size
46 cm wide in Spanish layout: the format people who type all day are already used to.

10 metre range
Works far from the computer: with the PC inside a closed cabinet or a screen at the back of the room.

Windows, Mac and Linux
The same keyboard works on all three systems, with no software to install and nothing to configure.

Two AAA batteries
No cables and no charging waits, with a rated durability of three million keystrokes.

The 10 metre range: most office wireless keyboards are used a couple of metres from the receiver. Ten metres opens up other uses: the PC stored in a closed cabinet, a computer connected to a meeting-room screen, or typing from the meeting table without going near the tower.

WHERE IT DELIVERS
