WHAT IT SOLVES

Everything a sing-along needs, in 432 grams

Wireless microphone
It comes in the box with its own voice effects: the unit arrives ready to sing, with no extra accessories.

It records your singing
A dedicated button records the performance, something rare in a speaker this size.

Bluetooth 5.4
The most recent version among the speakers in the line, with 10 metres of range and TWS mode.

Leather strap
A finishing detail that is uncommon in this range, and it also makes it comfortable to carry.

The recording function: a dedicated button records what comes in through the microphone together with the track that is playing, and saves it to the USB stick or the card. For a family gathering or a singing lesson, that makes the speaker something almost no competitor this size offers: you sing, listen to the result and try again.
