Up to 15.6"	2 of 12.5 cm	1500 RPM	660 g

WHAT IT SOLVES

What it takes to cool, and nothing more

Two fans

Two 12.5 cm units at 1500 RPM, with a control to lower the speed when that much air is not needed.

660 grams

The lightest cooling pad in the line: it goes in the backpack with the laptop without adding weight.

Five heights

Five fixed positions up to 40° of tilt, to choose the screen height that suits you.

Metal mesh

The support surface is a metal grille: it lets the air through and does not warp with heat.

TEROS

PART NUMBER
ACCTE7020N

The metal mesh: the surface the laptop rests on is a metal grille, not a plastic cover. That lets the air from the fans pass through the whole pad instead of escaping at the sides, and the metal itself helps dissipate the heat the laptop gives off by contact.

WHERE IT DELIVERS

Built for those who want the practical option

EVERYDAY USE

Cool and raise, without fuss

Two fans, a speed control and five heights: what solves heat and posture on an office or study laptop.

- 2 fans of 12.5 cm
- Speed control
- Notebooks up to 15.6"

WORK ON THE MOVE

660 grams in the backpack

It weighs half as much as a desk pad, so it goes with the laptop between home, office and university.

- 0.66 kg
- USB cable included
- 5 heights up to 40°

TIDY DESK

Gives back the port it uses

Powered over USB, it provides two ports, so the laptop loses no input when the pad is connected.

- 2 USB ports
- USB cable included
- 12-month warranty

DATASHEET · COOLING PAD

Cooling, adjustment and connection

COOLING

Fan	2 units of 12.5 x 12.5 x 1.5 cm
