MONITOR ARM

TE-7114

Two monitors from 22" to 32" · 12 kg per arm · VESA 75 and 100

TWO ARMS WITH ADJUSTABLE SPRINGS
Raise, lower, swivel ±90° and rotate 360°

Both monitors no longer stand on the desk and are clamped to its edge, at eye level. Each arm holds up to 12 kilos and moves independently, so adjusting one screen does not mean moving the other.

TWO SCREENS ON A SINGLE CLAMP

REFERENCE IMAGE

MONITORS	LOAD PER ARM	FRONT EXTENSION	LIFT
2 · 22" – 32"	12 kg	71 cm	59 cm

WHAT IT SOLVES

Two monitors on the desk, without taking up the desk

Two independent arms
Each spring holds its monitor's weight. The screen rises and falls with one hand and stays where you leave it.

360° rotation
Either screen turns from landscape to portrait to read long documents.

A single clamp
Fastens to the edge of the desk with a clamp. No holes to drill in the furniture.

12 kg per arm
The arms are aluminium and each holds a monitor of up to 32 inches and 12 kilos.

TEROS

PART NUMBER
ACRACKTE7114

Two independent arms: each arm has its own spring, and the tension is set according to the weight of the screen it holds. The two monitors can sit at different heights or angles, and moving one does not shift the other.

WHERE IT DELIVERS

Built for the desk several people share

DUAL-SCREEN DESKS

A clear desk

The monitors no longer stand on the desk, so all the space their bases took up comes back. It installs with a clamp on the edge of the desk.

- VESA 75 and 100 mm
- 1 – 9 cm clamp
- ±90° swivel

SHIFTS AND SHARED DESKS

Each user at their own height

The screens rise up to 59 cm and move closer or further up to 71 cm. The same desk serves people of different heights, each adjusting it by hand.

- Lift up to 59 cm
- 71 cm extension
- Tilt 85° / -30°

LARGE SCREENS

From 22" to 32"

Each arm holds up to 12 kilos, and 360° rotation lets one screen go portrait while the other stays landscape.

- 12 kg per arm
- 360° rotation
- Aluminium + plastic

DATASHEET · MOUNTING ARM

Compatibility, movements and build
