NOTEBOOK COOLING PAD

TE-7130N

Notebooks from 10" to 19" · three 11 cm fans · 17 to 20 dBA

FROM 17 TO 20 DECIBELS
Cools at the noise level of a silent room

Cooling pad with three 11 cm fans that move 63 to 85 CFM at just 17 to 20 dBA. Six speed levels and ten RGB modes from the LCD display, adjustable angle from 6.5° to 50° and two USB 2.0 ports. Braided USB cable included.

REFERENCE IMAGE

NOTEBOOKS	FANS	NOISE	TILT
10" – 19"	3 of 11 cm	17 – 20 dBA	6.5° – 50°

WHAT IT SOLVES

Three fans spreading the air, without being noticed

Three fans

Three 11 cm units spread the air across the width of the pad, instead of concentrating it in one spot.

17 to 20 dBA

Below the noise of a quiet conversation: you can work or record without it getting in the way.

From 6.5° to 50°

From almost flat to steeply tilted: for typing at the desk or watching content in bed.

LCD display

Six speed levels and ten RGB modes, all from the pad's own panel.

TEROS

PART NUMBER
ACCTE7130N

The 17 to 20 decibels: twenty decibels is the level of a silent room, below a whisper. It is achieved by sharing the work between three fans turning slowly, between 1000 and 1300 RPM, instead of asking everything of a single one: the air moved is similar and the noise far lower.

WHERE IT DELIVERS

Built to cool without interrupting

WORK AND RECORDING

Cooling with no background noise

In video calls, recorded classes or audio work, a noisy pad creeps into the microphone. At 17 to 20 dBA that stops being a problem.

- 17 to 20 dBA
- 1000 to 1300 RPM
- 63 to 85 CFM

ANY POSITION

From the desk to the bed

The 6.5° to 50° range covers everything from the minimum tilt for comfortable typing to the maximum for watching a series lying down.

- 6.5° to 50° tilt
- Laptops from 10" to 19"
- 3.3 cm high · 1.1 kg

TIDY DESK

Gives back the port and brings its cable

Powered over USB, it provides two USB 2.0 ports, and the 60 cm braided cable comes in the box.

- 2 x USB 2.0
- 60 cm braided cable
- 12-month warranty
